This 3 story 2 bay building has been resurfaced with white aluminum clap boards. There is a flat roof and the structure is located next to the corner building.

The first floor entrances are located within an angled recess two steps above the sidewalk. The wood and glass panel doors are both topped by transoms. The right side of the recess is obliquely angled. A single pane of glass forms the shop window and a foundation of concrete is visible under the aluminum siding. Above the shop is a large wood sign board.

A three paneled shallowly angled recessed bay window is on the 2nd floor. The 3 large panes are each topped by a transom. Above this window is a sign board. There are two 4-over-4 double hung windows. The cornice has been boxed in by the aluminum.
